

Chromebook Parent Purchase Program

Families have the opportunity to buy Chromebooks at discounted prices through PC Corp and Compugen, the information technology companies that supply Edmonton Public Schools.

This new *Chromebook Parent Purchase Program* is an **option*** for parents and guardians who want to buy a Chromebook for their child.

*Families **do not** have to buy a Chromebook.

Benefits of the program

Chromebooks purchased through this program are high-quality, enterprise-grade Chromebooks similar to those used in Division schools. They include a 3-year depot service warranty provided directly by the vendor/manufacturer. Chromebooks bought from local stores typically come with a 1-year manufacturer's warranty.

Buying a Chromebook through the program

Both companies offer different models of Chromebooks, with different warranties and ways to order. Families who choose to buy Chromebooks through the *Chromebook Parent Purchase Program* assume all responsibility for those Chromebooks. For all questions about purchase, delivery and warranty, contact the companies directly.

Compugen *(one model available)*
